# CHAIRWOMAN'S MESSAGE

"Together Everybody Achieves More", sums up this past year's growth within the WCCC. I am deeply honored, as Chairwoman to lead a group of business and community leaders. I would like to give credit where credit is due, Lena McArthur has done an outstanding job as our Executive Director over this past year and is the one who came up with that slogan. She has a great vision for this Chamber, she knows with the leadership of so many of our members, the WCCC is unstoppable. We have come a long way preparing for this time. We are so thankful for the great partnership we have with the SWLA

Economic Development Alliance, they were a huge part of the success we had as we, for the very first time hosted the LACCE conference. With all the Economic Development coming our way the Executive Committee and I feel the leadership we have within the WCCC is in a great position as we move into 2016.

With kind regards,  
Jody Barrilleaux  
Chairwoman of the Board – 2015

*2015 LACCE Conference*

# FROM THE DESK OF THE EXECUTIVE DIRECTOR

Welcome to West Calcasieu, it's an exciting time in our area. This is a time of change and tremendous amount of new opportunities. There is an excitement in the air about the West Cal Chamber of Commerce (WCCC). New Business, New People, and a New Energy is evident in our area.

The West Cal Chamber of Commerce (WCCC) represents the interests of area businesses at the federal, state and local levels of government. Our Chamber also helps to create economic development and improve community quality of life. WCCC is comprised of

Sulphur, Vinton, and Westlake, three small cities working together to develop an attractive, powerful force in the area's economy.

The West Cal Chamber of Commerce is part of Southwest Louisiana Economic Development Alliance with Beauregard, Calcasieu, Cameron, Allen and Jeff Davis Parishes. West Calcasieu is the 2nd largest city in the parish. We invite you to enjoy our community, whether you are a visitor, new comer, business prospect or resident.

Our location, natural beauty, climate and small-town atmosphere offer a unique place for your family or business. We are extremely proud of our locally owned businesses, restaurants and specialty shops where people know their regular customers by name and are always ready to welcome a new face with a warm and friendly Southwest Louisiana smile or a handshake.

With all the new development in our area truly "All Roads Lead to West Calcasieu" come join this exciting time with us and be a part of our wonderful community.

Sincerely,  
Lena McArthur  
Executive Director  
West Cal Chamber of Commerce

## THANK YOU TO OUR BOARD MEMBERS

Well another Chamber year is ending and another is beginning. With that being said, we have some instrumental Board Members that have reached their term on the board and are leaving their seat as of December 31, 2015. It's great to have leaders that you can count on! Our Board members have busy schedules however, they sacrifice their time to come together and discuss the things that help us be a success in every area of providing what is needed for the community. We would like to thank Christine Fisher, Janet LeLeux, Scott Foreman, Misty Finchum, Lynn Hohensee, Tab Finchum, and Kathy Beniot for their continued support and playing a significant part in helping make the West Cal Chamber a better community based organization!

## HISTORY OF WEST CALCASIEU CHAMBER OF COMMERCE

First records for the Chamber of Commerce of Sulphur list Raymond Nelson as President. His term of office was from 1942- 1945. From 1945 through 1949 several leaders aided in it's promotion and development. The Chamber year ran from November 1 through October 31. In 1949 the Sulphur Chamber of Commerce officially became the West Calcasieu Association of Commerce.

The office was located upstairs in the Foreman Building on West Napoleon Street for several years, later moving to the Brimstone Museum in 1976, then housed inside the office with Tab Finchum, Edwards Jones, 1906 Maplewood Drive for a few years. In May 2011 the WCAC relocated inside the West Calcasieu Business Center, the old Sulphur City Hall, located at 500 A North Huntington Street in Sulphur.

The Association conducts monthly business meetings on the 2nd Thursday of each month at the Frascch Park Conference Room.

The Association has 5 committees with each having sub committees who stay busy all year. Economic Development, Events, Finance, Membership and Government Affairs have various members of the Board of Directors as well as other members at large serving on the committees.

The Annual Banquet is held in November of each year where the Outstanding Citizen of the Year is announced.

# HISTORY OF CALCASIEU PARISH

Calcasieu Parish, created March 24, 1840, from the Parish of Saint Landry, is one of the original 19 civil parishes established by the Louisiana Legislature in 1807. At the time of the parish's creation, it comprised an area of what is now five parishes.

The river from which the parish derives its name is shown on some older maps as “Bayou Quelqueshue” and sometimes as Calcasieu. Calcasieu, which means “crying eagle” in English, is said to have been the name of an Attakapas Indian chief who gave a peculiar cry like an eagle as he went into battle.

The parish's early history hails back to the Spanish occupation of Louisiana. In 1797, Jose M. Mora was granted a large tract of land between Rio Hondo and the Sabine River, known for years as the “Neutral Strip”.

The strip of land, which had long been a bone of contention between Spain and the United States, was acquired by the U. S. by treaty in 1819, after Louisiana was ceded to the American government by France in 1803.

The area became a refuge for “desperadoes from the eastern states” and for outlaws and “filibusters from Carolina, Georgia, and Mississippi”.

Some time elapsed before settlers took up permanent claims. Among these early families we find the names of Ryan, Perkins, LeBleu, Deviers and Henderson. Acadians from the eastern parishes of Louisiana also emigrated to this area so that today the population is mixed, consisting of Creoles, Acadians, Americans and Indians.

On August 24, 1840, a half-dozen men met to organize as representatives for six wards that later became five parishes. Since there was no courthouse or public building, the meeting had to be held in a private dwelling, and the one chosen was the large, rough-hewed home of Arsene LeBleu near present-day Chloe. The first jury men who assembled that day were David Simmons, Alexander Hebert, Michel Pithon, Henry Moss, Rees Perkins, and Thomas M. Williams. They first elected officers and a parish clerk and decided upon a set of simply parliamentary rules which would give their president authority to keep their meetings orderly and progressive.

The parish boundary was reduced in 1870 when Cameron Parish was cut off from the south portion of Calcasieu. These limits remained until 1912, at which time it comprised an area of over 3,600 square miles and was the largest parish in the state, and for this reason it's sometimes called “Imperial Calcasieu.” In 1912, the three parishes of Allen, Beauregard, and Jefferson Davis, with a total area of approximately 2,548 square miles, were cut off from the Parish of Calcasieu. These were the last parishes created in Louisiana.

# RECREATION

When it comes to recreational facilities, West Calcasieu is the top draw in the State of Louisiana.

Highlighted by the Sulphur Parks and Recreation facilities, the City of Sulphur is host to the Louisiana High School State Softball Tournament every year at the gorgeous Frasch Park/Pattison Complex that features 18 plus fields that can be used for baseball as well as softball.

In addition to hosting the State High School Softball Tournament, Frasch Park is host to the Dixie Boys World Series in addition to the Super World Series.

Flanking Frasch Park is the Frasch Park Golf Course, a beautiful 18-hole golf course complete with driving range and putting greens. Bayou Oaks Country Club is another enjoyable 18-hole golf course that offers professional instruction to help you improve your golf game on the driving range or the putting green.

If swimming is what you are looking for, you do not have to look any further than the SPAR Aquatic Center; a spacious arena that boasts a kiddie as well as Olympic-size pool among many other recreation offerings. This venue has played host to the Louisiana High Schools State Swim meet since 2006.

Swimming is not the only thing you can do at the Aquatic Center. Besides a water park that opened in the summer of 2006, the Aquatic Center also features two workout gyms, multiple basketball/volleyball courts, an upstairs track as well as racquetball/tennis courts.

In addition to boasting multiple tennis courts, McMurry Park is also home to an ever-growing number of little league/high school regulation baseball and soccer complexes.

For rodeo fans, the West Calcasieu Arena in Sulphur is home to some of the most exciting rodeos in the Southeastern United States.

Further west, the parks and recreation in the Town of Vinton are home to soccer, football, baseball, softball and basketball arenas in addition to a swimming pool and tennis court.

To the east of Sulphur, Westlake District One has a very impressive array of facilities that host youth soccer, football, basketball and baseball games. They also have an open-air gymnasium, three closed gymnasiums, a pair of pools, both outdoor and indoor and three pavilions.

The Westlake Recreation Complex contains weight rooms with an array of state-of-the-art equipment as well as free weights; a basketball court, walking track, and aerobics rooms. Conference rooms are also available at this impressive facility.

In August 2009, National Golf Course of Louisiana opened its doors to golfing enthusiasts in the area. Located in Westlake, soft-pines and dramatic vistas highlight renowned golf course architect Dave Bennett's 7,000-yard layout, featuring 14 lakes and 80 bunkers, and some of the area's largest and most challenging greens. Five sets of tees offer an equally fun and challenging round of golf for both recreational and accomplished players.

As well for the adults, we have Delta Downs Racetrack Casino and Hotel in Vinton. They provide year round horse racing and over 1,600 slots and video machines. The Isle of Capri Casino & Hotel in Westlake offers 1,800 slots and video machines. They have 50 high action table games, and a 25 table poker room. Both have venues offering live performances from a variety of entertainers.

So as you can see, the great area of West Calcasieu is definitely the place to be when it comes to recreation. Come be a part of what we have to offer in West Calcasieu and enjoy!

The *West*  
has the *Best!*

# CULTURE IN SOUTHWEST LOUISIANA

It can truly be said that West Calcasieu Parish has a culture like no other.

Known the world over for our cuisine, especially our gumbo and crawfish. Along with our festivals, great hunting and fishing, and southern hospitality, there is something for everyone in our little corner of Louisiana.

Our seafood industry, along with marinas and boat launches attract visitors from far and wide. Duck and geese hunters are drawn to West Calcasieu during the migratory season and wooded areas offer great opportunities for deer, turkey, squirrel, rabbit and quail hunting.

But there's so much more to the Southwest Louisiana culture than hunting and fishing. The Creole Nature Trail Scenic Byway, located along Highway 27 heading south from Sulphur to Cameron Parish and back up to Lake Charles, offers sights and experiences not to be missed. Niblett's Bluff Park in Vinton, which dates back more than 200 years, offers fishing, camping, bird-watching and hiking, as well as a confederate reenactment held every spring.

From recreation to education to our unmatched cuisine, West Calcasieu Parish is the place to experience Louisiana, the Sportsman's Paradise.

# DEVELOPMENT

*New Retail Construction - Sulphur*

West Calcasieu Parish provides an unprecedented opportunity for businesses in Louisiana.

Due to the recent string of natural disasters in the state, a wealth of federal and state incentives are available to Louisiana businesses and industries. These incentives coupled with a region rich with

resources make southwest Louisiana a happening place.

Billions of dollars are being invested statewide. These public and private funds stream into the state via entrepreneurs, opinion leaders and decision makers who are looking at Louisiana as a state of opportunity.

Programs such as GO-Zone (Gulf Opportunity Zone) and The Enterprise Zone program are programs designed to attract businesses to an area by offering incentives such as tax credit ratios. The Quality Jobs program provides payroll rebates as well as sales tax rebates. The Industrial Property tax exemption provides up to 10 years local property tax reductions on manufactures new investment or annual capitalized additions. This exemption applies to all improvements to the land, buildings, machinery, and equipment as part of the manufacturing process.

Once businesses decide they want to locate in the area, then the Imperial Calcasieu Regional Planning and Development Commission (IMCAL) takes over. The Commission offers businesses help with business plans, provide current census data, and also allows access to GIS (geographical Information systems) mapping software. The Commission provides Important information, such as feasibility studies, population and minority information.

The Commission will then direct businesses to the proper offices to obtain necessary permits.

The Imperial Calcasieu Regional Planning and Development Commission can also help by acting as a middleman between the federal government and the new businesses. IMCAL's primary goal is the continued growth and development of Southwest Louisiana. They provide "hands on" technical assistance to local governments, businesses and individuals.

An improved and expanding economy helps raise a community's standard of living, making it more attractive for its residents and new businesses that choose to locate in that community.

Development in West Calcasieu is currently enjoying a "prime time" of sorts, with unprecedented new growth that invites new businesses to join us and existing businesses to expand.

# INDUSTRY

Industry in West Calcasieu Parish flourishes along the Louisiana Gulf Coast and the Calcasieu River. The abundance of timber, mineral deposits, and natural resources allowed the lake area to become the industrial hub it is today.

The attractive workforce, infrastructure and access to railways, waterways, interstate, port and pipeline corridor make West Calcasieu a great place for industry to thrive.

Industrial growth in our area began in the city of Sulphur. The Union Sulphur Company used their patented “Frasch Process” and began pumping liquefied sulfur out of a dome located about nine miles west of Lake Charles in 1896. This led to the development of the city of Sulphur. By the early 1900s, the mine was the largest in the world, producing about 4,000 tons per day. While working along the flanks of this sulfur dome, the first successful crude oil wells in the southwest area were drilled. The finding of such important resources in areas surrounding the lake insured southwest Louisiana a place among the great industrial centers of the world.

The real catalyst for industrial development in Calcasieu Parish was the onset of World War II. The United States military machine needed fuel, lubricants, and synthetic rubber for its trucks, tanks and planes, and lake area provided ready access to all of the elements needed to expedite their production and delivery. Raw materials like crude oil and natural gas, abundant water for manufacturing process, and a waterway for the ships and barges that would transport the manufactured products, made the area a natural choice.

The three companies that felt the most demand by the area were Continental Oil Company, better known as Conoco, which was completed in 1941, the Firestone synthetic rubber plant, now Firestone Polymers, which began production in 1943, and the Cities Service refinery, now CITGO, was brought on line in 1944.

After the war, industry in West Calcasieu continued to grow and develop at a fast pace. In 1947, a caustic soda and chlorine plant was opened by the Columbia-Southern Company. It was a subsidiary of Pittsburgh Plate Glass Company, now named PPG Industries, which is still owned and operated by this company. Another example of the area’s immediate postwar industrial development was the arrival of Cit-Con Oil Company in 1949. The lubricants and wax plant was originally built and operated jointly by Cities Service Company and Conoco, but is now wholly owned by CITGO.

Today the petrochemical and refining industries are doing well in West Calcasieu primarily due to high product price, strong domestic demand, and strong export markets.

This is great for southwest Louisiana where more than half of the jobs are dependent on these industries in one way or another. The impact of these plants on employment to the local economy is huge. Companies who supply services along with employees spend income in the local economy and create more demand for services, which add more opportunities for employment in the area.

The combination creates a healthy economy and adds to the commercial backbone of southwest Louisiana.

# Westlake Chemical

Westlake Chemical is an international manufacturer and supplier of petrochemicals and fabricated products that enhance the daily lives of people around the planet. The tires we ride on, the plastic wrap that keeps our meats and produce fresh, the pipes that are essential to ensuring clean water, the frames that secure our windows and doors, Westlake plays a vital role in supplying the building blocks for these products and many more. Employing more than 2,100 people, Westlake operates from 15 locations in North America as well as China. Our unwavering goal is to provide quality products and service to our clients by being highly responsive, reliable, nimble and easy to work with. We are a dependable supplier of products in their most common forms. Yet, we are also known for collaborating closely with clients to develop specialized product properties that will help them meet their own end-product design goals.

#### OUR VALUES

Our core values are at the heart of how we conduct our business and serve to guide each of us as we work to bring excellence to our communities, operations and customers.

#### COMPETITIVENESS

We strive for operating excellence and strong customer service while maintaining a long-term approach.

#### QUALITY

We are committed to a continuous improvement process.

#### HUMANITY

The integrity, creativity, dedication and drive of our employees allow us to excel. The safety and health of our employees and the environment are of utmost importance.

#### CITIZENSHIP

We are proud to be an active part of the communities in which we work and live.

#### OUR MISSION

"Our mission is to provide quality products and services to commodity chemical, plastics and related fabricated products markets. We work to align and focus the interests of our global customers and suppliers with those of our shareholders, employees and communities. We strive to be a low cost manufacturer and to find value across the chain through vertical integration and synergies through horizontal integration. We adhere to the concept of economic value added (EVA<sup>®</sup>) and seek to return value to our shareholders above their invested cost of capital."

Westlake Chemical Corporation is a manufacturer and supplier of petrochemicals, polymers and fabricated products with headquarters in Houston, Texas. The company's range of products includes: ethylene, polyethylene, styrene, propylene, caustic, VCM, PVC and PVC pipe, windows and fence.

For more information, visit the company's Web site at [www.westlake.com](http://www.westlake.com).
